PROFESSIONAL SUMMARY

B.Tech student in Artificial Intelligence & Data Science (graduating 2027) who completed a 60-day Software Development Internship at IMERGENE, working on UI refinement, software testing, AI-assisted development, and Git/GitHub workflows. Built a Python/Streamlit NLP application and a C#/SQL Server desktop application with full CRUD. Seeking entry-level software development, data analytics, or AI/ML roles.

TECHNICAL SKILLS

Programming & Query Languages: Python, SQL, C#, C, C++, Data Structures
Web & Application Development: Streamlit, Windows Forms, ADO.NET, HTML, CSS
Databases: SQL Server, SQLite, DBMS, Supabase CRUD Operations
Developer Tools & Practices: Git, GitHub, Visual Studio, VS Code, Blue Desktop, Software Testing, Prompt Engineering
AI/NLP & Data Analytics: NLP (NLTK, TextBlob), Sentiment Analysis, Keyword Extraction, TF-IDF, Data Analysis, Data Visualization, Power BI, AI Tools (Research, Planning, Design)

INTERNSHIP EXPERIENCE

Software Development Intern | IMERGENE | Remote (Sangli, Maharashtra, India) | 60 days **13 Aug 2026 – 11 Oct 2026**

- Designed and refined the final UI for the Blue Portal, focusing on usability, visual consistency, and user experience.
- Tested the functionality and workflow of the Blue VS Code Extension to identify issues and validate behavior across different use cases.
- Used the Blue AI Coding Agent to generate websites from requirements, exploring AI-assisted software development workflows.
- Used Git and GitHub (clone, pull, push, branches) for version control and collaboration within the project repository.

PROJECTS

Construction Site Management System | C#, SQL Server, Windows Forms, ADO.NET, Crystal Reports | GitHub

- Co-developed a Windows desktop application to replace manual registers for construction sites, workers, suppliers, materials, and payments with a centralized SQL Server database (13 tables) and full CRUD operations.
- Implemented admin login, purchase orders with GST/discount calculation, worker-to-site allocation, supplier/worker/customer payment tracking, and Crystal Reports-based reports.

Legal Intelligence & Bias Detection System | Python, Streamlit, NLTK, TextBlob, PyPDF2, Plotly, SQLite | Live Demo

- Built a web application to speed up the preliminary review of lengthy legal complaints and case text, with PDF/text ingestion, NLP preprocessing, summarization, and keyword extraction (NLTK).
- Implemented sentiment analysis (TextBlob, with rule-based fallback) and a rule-based bias-screening module that scores text 0–100 across categories such as gender bias and aggressive language.
- Developed an IPC/BNS section recommender that ranks sections from an SQLite dataset by match percentage (TF-IDF/cosine similarity), with interactive Plotly visualizations.

PeopleBook | Next.js, React, TypeScript, Supabase, PostgreSQL, Tailwind CSS, MSG91 | Live Demo

- Full-stack development of a secure, admin-only financial records platform for Diamond Elite Club: people and records management, payment tracking, balance calculations, role-based access control, financial reporting, and SMS notifications.

BillSnap | Next.js, React, TypeScript, Node.js, Express, Python, FastAPI, MongoDB, Cloudinary | Live Demo

- AI-powered electricity bill analysis and energy management platform with OCR-based bill extraction, consumption analytics, bill forecasting, appliance monitoring, energy risk analysis, and a conversational AI assistant.

Student Result Analyzer | Python | GitHub – Menu-driven application to add student marks, calculate totals and averages, detect pass/fail, and list the top three students.

Contact Book CLI | Python | GitHub – Command-line contact manager with add, update, search, and delete features and persistent file-based storage.

EDUCATION

B.Tech in Artificial Intelligence & Data Science | CGPA: 7.73 **Expected 2027**
Padmabhooshan Vasantraodada Patil Institute of Technology, Budhgaon, Sangli
Diploma in Computer Science | Percentage: 82.33% **2021 – 2024**
Latthe Education Society's Polytechnic, MIDC Kupwad

CERTIFICATIONS & TRAINING

- **Software Development Internship Completion** – IMERGENE, Oct 2026 (Certificate No. IME/2026/008)
- **Deloitte Data Analytics Job Simulation** – Forage, Jan 2026 | **Power BI Micro Course** – Skill Course, Jan 2026
- **Web Development Industrial Training** – Compcare Software Programming Training Institute, Sangli, Jul 2023 | **FDP on AI for Research, Innovation & Societal Impact** – PVPIT, Sep 2025
